THIS IS THE SHOVEL SO MANY MEN

BECAUSE

They recognize a good shovel when they see it, although they may not be able to originate one themselves.

It is well balanced, and has the right swing, because it is the right shape here

The ribs on this shovel are shaped to give great strength

This shovel is flat here,

and easy to push underneath the coal

Sizes: 1, 2, and 3.

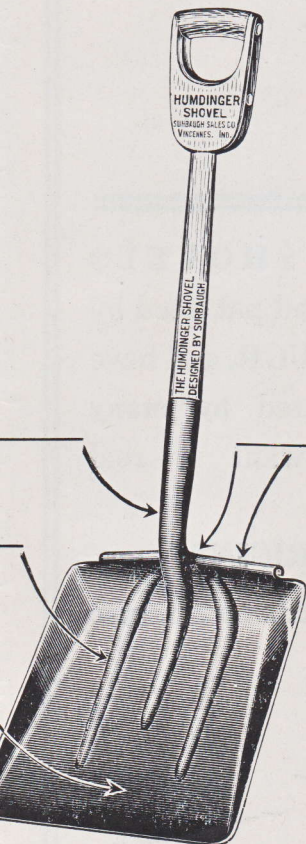

In Black Finish Only.

THERE ARE NO IMITATIONS

MANUFACTURERS ARE IMITATING

Although made
of very light
gauge steel this
shovel does not
split here

Because the
flange on the
rear end of
blade doubles
its strength
